(1) Except in an emergency, no principal shall suspend any student until that student has been advised of the nature of his misconduct, questioned about it, and allowed to give an explanation.

(2) Upon suspension of any student other than for in-school suspensions of one (1) day or less, the principal shall notify the parent or guardian and the superintendent or his designee:

(A) Of the suspension, which shall be for a period of no more than ten (10) days;

(B) Of the cause for the suspension: and

(C) Of the conditions for readmission, which may include, at the request of either party, a meeting of the parent or guardian, student and principal.

(3) If the suspension is for more than five (5) days the principal shall develop and implement a plan for remediation which shall be made available for review by the superintendent upon request.

(4) If at the time of the suspension the principal determines that an offense has been committed which, in the judgment of the principal, would justify a suspension for more than ten (10) days, he shall immediately refer the case by way of the superintendent or his designee to the board of education or a disciplinary hearing authority appointed by the local board of education consisting of at least 1 person but no more than the number of members of the local school board. The hearing shall be held no later than ten (10) school days after the beginning of the suspension. The notice of the time and place of this hearing shall be given in writing to the parent and principal by the hearing authority.

(5) After the hearing, at which evidence shall be taken and witnesses subpoenaed and heard upon application of the student or his parents, the board of education or the disciplinary hearing authority may order removal of the suspension unconditionally or upon such terms and conditions as it deems reasonable, assign the student to an alternative program, or night school, or suspend the student for a specified period of time.

(6) If the decision is determined by a disciplinary hearing authority, a written record of the proceedings, including a summary of the facts and the reasons supporting the decision, shall be made by the disciplinary hearing authority. The student or principal may within five (5) days of the decision request review by the board of education; provided local school board policy may require an appeal to the superintendent prior to a request for review to the board. Absent a timely appeal, the decision shall be final. The board of education, based upon a review of the record, may grant or deny a request for a board hearing and may affirm or overturn the decision of the hearing authority with or without a hearing before the board; provided, the board may not impose a more severe penalty than that imposed by the hearing authority without first providing an opportunity for a hearing before the board.
